

LASOS-PEDS

NEWSLETTER - DECEMBER 2023

LASOS-Peds
Latin American
Surgical Outcomes
Study in Pediatrics

Participating Centers

ARO-InCor team: Vinicius and Alexandra

Key Questions and Answers of the Study

1. What types of procedures can I register in the study?

Answer: All procedures involving an anesthesiologist, excluding imaging procedures that use sedation or general anesthesia, such as CT scans and MRIs.

2. Can patients who have already been discharged and return to the hospital within 14 days participate again in the study?

Answer: No, the same patient cannot be registered twice.

3. Can someone other than the father or mother sign the Informed Consent?

Answer: Yes, it can be signed by the person responsible for the patient's admission.

4. If the patient cannot read, should I still apply the Informed Assent Document?

Answer: It is not necessary to apply the Informed Assent Document for non-literate patients or those with any other comprehension difficulty.

5. What outpatient procedures should be considered eligible for recruitment?

Answer: Any procedure involving an anesthesiologist or anesthesia professional, except for the previously mentioned imaging procedures.

The study has already begun!

Great news! The LASOS-Peds initiation visit took place on 12/21/2023. Now, with the ethical approval from the centers, I wish you success in successfully selecting the 14 days for data collection. Good luck with the next phase of the study! If you need more support or have further updates, feel free to share. Success in your research!

Study Status

The study was approved by the Institutional Review Board (IRB) of the coordinating center in April 2023. The Hospital Infantil Varela Santiago in Natal - RN, started data collection on 12/26/23. The study already has 36 included patients! Well done to Dr. Kleber Seabra, the coordinator Janaise, and the entire team!
